Four Seasons Resort Los Cabos at Costa Palmas' Villa #11

If you seek seclusion, visit this East Cape hotel, which will soon debut its Private Retreats Collection. Set inside a 1,000-acre private beachfront community, coveted Villa #11 encompasses nearly 10,000 square feet of living space, two master suites with bathrooms and four guest bedrooms (each with its own bathroom). The interiors are fresh and modern, and the wall of windows in the living room allows for uninterrupted vistas of the water and the Sierra de la Laguna Mountains. You also can soak up the scenery from the alfresco infinity pool and lounging areas.

The villa comes with its own staff: a private chef, a residential assistant and adventure concierge guides.
